Summary

Product Management professional with 6+ years of experience spanning product development, business analysis, and operations. Currently focused on building and optimizing digital healthcare platforms at scale. Experienced in launching user-centric features, leading cross-functional teams, managing API-based integrations, and driving product-led growth through A/B testing, workflow automation, and CRM strategies. Proven success in delivering high-impact product enhancements that increased lead volume, conversion rates, and operational efficiency.

Experience

Product Manager

MediBuddy • Gurgaon, Haryana
Jan 2025 – Present

- Increased organic lead generation to 1L/month by deploying targeted creatives (11 banners, 3 GIFs, 5 sideflaps) across key app/web touchpoints, resulting in ~11 Cr/month revenue via ~1500 surgeries.
- Launched personalized health engagement features to re-engage users who dropped out post OPD, didn't complete AHC, or failed to place medicine orders. Conversions increased by 1.2x–1.3x across segments.
- Built a surgery booking chatbot enabling ~10 OPD bookings/day, saving 6 FTEs and generating 28L/month in leads and 35L/month in auto-bookings.
- Created new traffic entry points to the surgery funnel via nav, claims page, benefits, boosting traffic from 90k to 1.5L/month and lead volume by 1.4x.
- Integrated LSQ and MediBuddy systems to show RX/discharge docs for 3.3k+ surgeries under track orders.
- Built a no-code tool to publish condition pages with CRM integration, leading to 1200 leads/month and 1.2% → 1.4% conversion boost.
- Conducted A/B tests on creatives (e.g., GIF CTR drop from 3.5% → 2.7%), Typeform content tests, and lead quality improvements.

Business Analyst (Analyst III), New Initiatives

MediBuddy • Gurgaon, Haryana
Jun 2021 – May 2025

- Set up CRM (LeadSquared) from scratch, defining 250+ data points and managing APIs for 1L+ leads/month.
- Collaborated with cross-functional teams (product, insurance, marketing, ops) to build 62+ automation workflows and 5 internal tools.
- Created 15+ dashboards (200+ charts) on Apache Superset for COVID Vaccination (2.2L shots) & Surgery (32k) monitoring.
- Designed comms across 22 email and 14 WhatsApp touchpoints for user nudges, reminders, CSAT/NPS feedback.
- Developed a hospital locator tool using pincode logic across 1200+ hospitals and 8700+ doctors (23+ specialties).

Operations Manager

OLX People • Gurgaon, Haryana

May 2019 – Mar 2021

- Scaled supply for mass hiring by 12x while reducing TAT by 3x.
- Partnered with freelance recruiters and agencies to grow reach across 10+ new cities.
- Improved joining rate from 10% to 17% and boosted self-applied candidates from 15% to 25%.
- Led 30+ team members and handled 5+ high-value client accounts (>20L/month).
